Xush kelibsizlar!

Dear Parents,

As the Head of Early Years and Primary at Invento the Uzbek International School, I am excited to welcome you and your children to our school. Choosing the right school is a big decision, and we are happy to offer a wide range of learning opportunities at our Ashgabat Campus.

The Primary Years Programme (PYP) at our school is more than a standard academic experience. It is an advanced educational model that fosters critical thinking, inquiry skills, and the confidence to pursue ambitious goals. At Invento, we create a unique learning environment where each child discovers their potential, develops leadership qualities, learns to engage with the world around them, and prepares for the global challenges of the future.

We encourage open communication and collaboration because we believe that a strong partnership between parents and the school helps children succeed. I am delighted that your family is considering our school, and I look forward to meeting you personally. Together, we can build a better future for our students to become lifelong learners.

Learning at Invento

Invento-da O'quv Jarayoni

There is a lot of learning that happens at IUIS everyday and we work with passion and commitment to fulfill our school's values which are to engage, empower, and enhance the learning of our students. All parents want the best for their children and we would be happy to help your child to become a confident, independent, and balanced lifelong learner.

IUISda har bir kun ta'lim olish imkoniyatlariga boydir. Biz o'quvchilarimizni bilimga jalb qilish, rag'batlantirish va ta'lim jarayonlarni mukammaltirish bo'yicha maktabimiz qadriyatlariga rioya qilishga intilamiz. Barcha ota-onalar o'z farzandlari uchun eng yaxshisini xohlashadi va biz farzandingizga o'ziga ishongan, mustaqil va muvozanatli shaxs bo'lib yetishishiga yordam berayotganimizdan mamnunmiz.

The learning in the PYP takes place entirely in English except for Russian and Uzbek language classes. Inquiry-based learning, authentic materials, and interconnected learning increase the engagement of our students and empower them to learn deeply. We meet and extend the requirements of the Uzbek National curriculum under the IB framework.

PYP dasturida rus va oʻzbek tillaridagi darslardan tashqari, hamma darslar toʻliq ingliz tilida olib boriladi. Izlanishga asoslangan ta'lim, asl mazmun va oʻzaro bir-biriga bogʻlangan ta'lim oʻquvchilarimizning faolligini va chuqur bilimini oshiradi. Biz IB standartlari doirasida oʻzbek milliy dasturi talablariga javob beramiz va uni kengaytiramiz.

IB framework and National Curriculum

IB dasturi va Davlat Ta'lim Standarti

The educational process at Invento UIS is unique. We have integrated the national educational standards of Uzbekistan with the International Baccalaureate (IB) programs for students in primary (PYP), middle (MYP), and high school (DP).

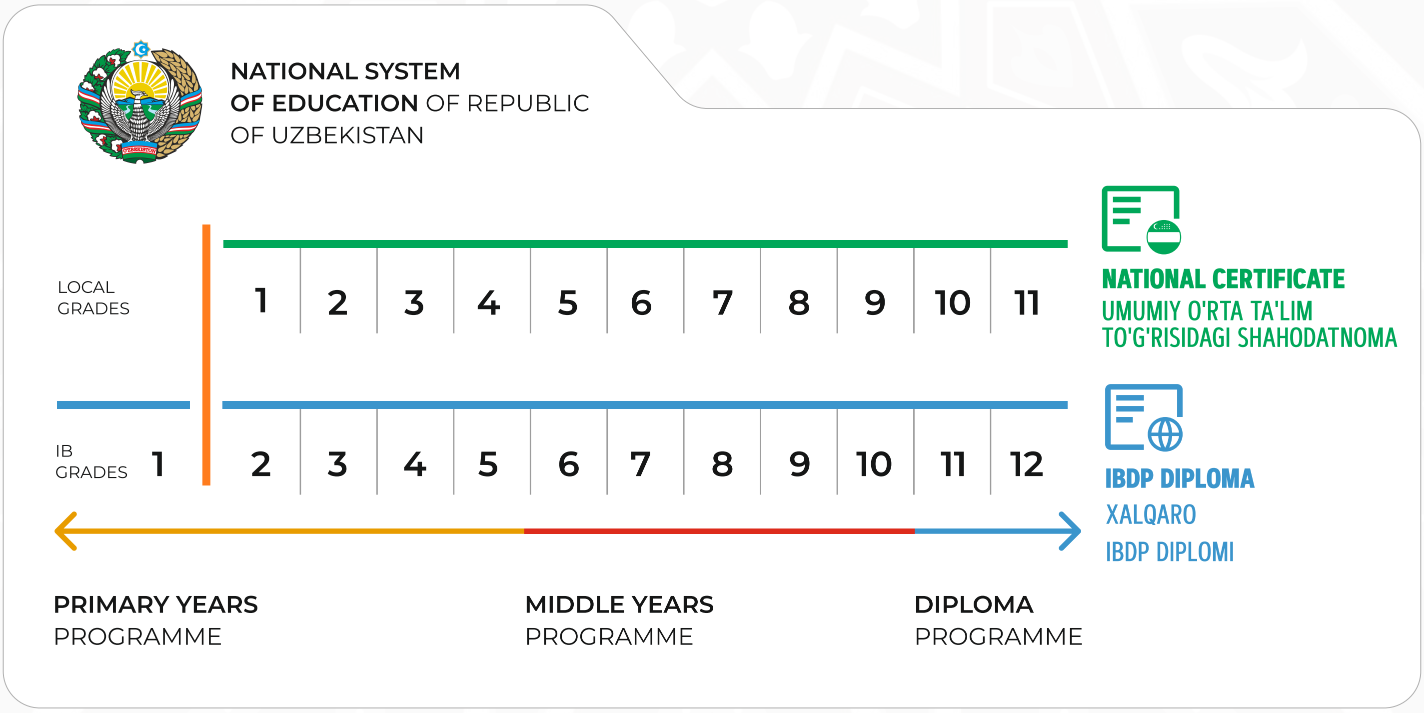
According to the legislation of the Republic of Uzbekistan, every child must be assigned to the 1st grade at the age of 7. Since IUIS provides education for 12 grades, we start education one year earlier than the state schools in Uzbekistan, accepting children at the age of 6. In practice, this means that a student in 2nd grade at Invento receives "tabel"- local school report, and they are registered in the National database.

Upon completion of the 12th grade, a student receives a National Certificate, and, with successful completion of the International Baccalaureate Diploma Programme exams, an IBDP Diploma is awarded.

Invento UIS maktabidagi o'quv jarayoni o'ziga xosdir. Biz Davlat ta'lim standartini va kichik (PYP), umumiy o'rta (MYP) va o'rta (DP) yoshdagi talabalar uchun Xalqaro bakalavr dasturlarini birlashtirdik.

O'zbekiston Respublikasi qonunchiligiga ko'ra, 7 yoshli har bir bola 1-sinfga jalb qilinishi shart. IUIS 1-12 sinfga ega bo'lganligi sababli, biz O'zbekistondagi davlat maktablaridan bir yil oldin ta'limni boshlaymiz va bolalarni 6 yoshdan qabul qilamiz. Amalda bu shuni anglatadiki, 2-sinfda Inventoda o'quvchi uchun "Baholar tabeli" ochiladi va u vazirlikning yagona milliy ma'lumotlar bazasida ro'yxatga olinadi.

12-sinfni tugatgandan so'ng, talabaga Milliy Sertifikat beriladi va IB-Diplom dasturi imtihonlarini muvaffaqiyatli topshirgan taqdirda xalqaro IBDP Diplomi ham beriladi.



School Routine

Maktab Hayoti

What does a typical school day look like at the Ashgabat Campus?

The morning at Invento AC starts at 8:00 – this is when the first breakfast is served, and children can come for breakfast at their convenience.

Every day, students are engaged in 8 lessons, starting at 8:30 am and finishing at 3:10 pm. During this time, they have two breaks for a second breakfast and lunch.

After the last lesson, students have a snack, and at 3:30 pm, they can either go home or stay for extracurricular activities and clubs.

In each PYP class, there is a Homeroom Teacher and a Teacher's Assistant. All teachers are highly qualified international educators with many years of teaching experience. Teacher's Assistants are key aides proficient in three languages (Uzbek, Russian, and English) who provide comprehensive support to the educational process.

The academic year at Invento lasts for 10 months, and the Campus closes during seasonal school breaks.

Ashxobod Kampusida odatiy maktab kuni qanday o'tadi?

Invento ACdagi faoliyat ertalab soat 8:00 da boshlanadi - bu vaqtda birinchi nonushta beriladi va agar xohlasalar, talabalar nonushta qilishlari mumkin.

Har kuni talabalar 8 ta darsga jalb qilinadi. Darslar soat 8:30 da boshlanadi va 15:10 da tugaydi. Bu vaqt ichida ular ikkinchi nonushta va tushlik uchun ikki marta tanaffusga chiqish imkoniyatiga ega bo'ladi.

Oxirgi dars tugagandan so'ng, talabalar tushdan keyingi snek tanffusiga chiqishadi va 15:30 da uyga qaytishlari yoki darsdan tashqari mashg'ulotlar va to'garaklar uchun qolishlari mumkin.

Har bir PYP sinfida sinf rahbari (HRT) va O'qituvchi Assistenti (Teacher Assistant) mavjud. Barcha o‘qituvchilar xalqaro toifali, yuqori malakali, ko‘p yillik pedagogik tajribaga ega o‘qituvchilardir.

O'qituvchi Assistentlari uch tilda (o'zbek, rus va ingliz) so'zlashadigan va o'quv jarayonini har tomonlama qo'llab-quvvatlovchi asosiy yordamchilardir.

Inventodagi o'quv yili 10 oy davom etadi va Kampus mavsumiy ta'tillar davomida yopiladi.

Life Beyond the Classroom

Sinfdan Tashqari Hayot

Fresh air and free time for play are very important for a child attending primary school.

In both snowy and warm seasons, PYP students spend time outdoors every day. Twice a day, for 40 minutes each, all PYP students, guided by the Homeroom Teacher and Assistant, go to the recreational areas of our campus for walks and active games.

Thanks to the well-equipped campus with walking areas, sports playgrounds, physical education and dance studios, a swimming pool, football and basketball fields - every child can find something suitable for active recreation.

Boshlang'ich maktabda bola uchun toza havo va o'yinlar juda muhimdir.

Qor yog'adimi yoki issiq bo'ladimi, PYP talabalari har kuni ochiq havoda vaqt o'tkazishadi. Kuniga ikki marta 40 daqiqa davomida barcha PYP talabalari sinf rahbari va yordamchisi rahbarligida Kampusimizdagi o'yin maydonchalariga sayr qilish va faol o'yinlar uchun tanaffusga chiqadilar.

Maktabimiz o‘yin hududi, sport maydonchalari, jismoniy tarbiya va raqs darslari uchun zallar, suzish havzasi, futbol va basketbol maydonchalari bilan yaxshi jihozlanganligi tufayli har bir bola faol vaqt o‘tkazishi uchun mos narsalarni topishi mumkin.

Nutrition

Ovqatlanish

The Campus menu consists solely of fresh products and is regularly reviewed based on the season. Our professional nutritionists create the menu in accordance with healthy dietary requirements for students, considering their age, and completely excludes harmful products and processed foods. The student menu contains fresh fruits and vegetables, natural meat, chicken and dairy products.

For students with food intolerances and confirmed allergies, our nutritionists adjust the menu by completely eliminating all allergens.

The are four meals per day:

- **First breakfast**
- **Second breakfast**
- **Lunch**
- **Afternoon snack.**

All dishes are prepared on the campus by highly qualified staff.

Kampus menyusi faqat yangi va sof mahsulotlardan iborat va mavsumga qarab muntazam ravishda qayta ko'rib chiqiladi. Menyu bizning professional diyetologlarimiz tomonidan o'quvchilarning sog'lom ovqatlanish talablari doirasida, ularning yoshiga qarab tuziladi. Bu jarayonda zararli mahsulotlar va polufabrikatlar umuman ishlatilmaydi.

Oziq-ovqatga bo'lgan tasdiqlangan allergiyasi bo'lgan talabalar uchun bizning nutritsiologralimiz menyuga o'zgartirish kiritadi. Bu jarayonda ratsiondan barcha allergenlar olib tashlanadi. Talabalarning kundalik taomlari sof meva va sabzavotlar, tabiiy go‘sht, parranda go‘shti va sut mahsulotlaridan iboratdir.

Maktabda to'rt mahal ovqatlanish jadvali mavjud:

- **Birinchi nonushta**
- **Ikkinchi nonushta**
- **Kechki ovqat**
